

Cuyahoga Community College Vaccination/Immunization Requirements

The College does not, in general, require vaccinations of students except for the following:

1. A student enrolling/enrolled in a Health Careers and/or Nursing program(s); and/or
2. A student participating in a College administered Study Abroad program(s).

Students enrolling/enrolled in Health Careers and/or Nursing program(s) must adhere to the requirements outlined in the [Health Careers and Nursing Immunization and Health Requirement Completion Guide \(guide\)](#). This guide outlines universal requirements of all Health Careers and/or Nursing program students and program specific requirements. The guide also outlines additional student requirements including but not limited to blood test, certification, background checks and drug screens. Students should also consult with their program manager for program specific requirements and review the [health career immunization information](#).

Students participating in a College administered Study Abroad program must anticipate adhering to the vaccination requirements of the specific country(ies) of intended travel. Students pursuing a Study Abroad program should consult the [U.S. Centers for Disease Control vaccination/immunization guidance](#) prior to travel.
