ASSOCIATE OF ARTS DEGREE

If you thought you were too busy with work and family to get an Associate of Arts degree – think again! Designed for busy people like you, this degree program allows you to conveniently earn your degree by taking your classes in the evenings, and online! This Cuyahoga Community College (Tri-C®) Western Campus Evening/Weekend Degree program gives you a breadth of knowledge in the arts, social sciences, math and natural science to serve as a foundation for a wide range of careers.

The Associate of Arts degree gives you academic groundwork to continue your education at the bachelor's degree level. The transfer curriculum is designed to parallel courses taken at four-year colleges or universities in the first two years. You can use your Associate of Arts degree as a stepping stone to the university of your choice.

The listed course offerings are just one of the ways you can earn your Associate of Arts degree. A Tri-C counselor or the College *Catalog* can help you understand general degree requirements.
