3354:1-20-11 Funding new initiatives policy

(A)   Student Success Pools

        Each year, the College is encouraged to set aside monies within the budget to be used for student success initiatives.

(B)   Piloting New Initiatives

        1. When necessary, new initiatives or services should be tested on a "pilot" basis. The length of the pilot or experimental period will be determined based upon the time needed to adequately assess the new initiative or service.
        2. After the pilot period ends, the College assesses the effectiveness of the pilot against its stated goals and makes a decision on whether to:
             a. Discontinue the pilot and apply resources to other student success initiatives.
             b. Continue the pilot or expand the pilot for purpose of further study.
             c. When possible, apply specific outcomes from the pilot and move beyond the pilot to full implementation.

(C)   Implementation

        The President or the President's designee is hereby directed to take all steps necessary and appropriate for the effective implementation of this policy.

        Effective date: March 30, 2017
