

Tri-C Plant Science and Landscape Technology

Recognized as the **TOP TWO-YEAR** plant science program since 2014

Program accredited through the **NATIONAL ASSOCIATION OF LANDSCAPE PROFESSIONALS**

In 2022 the Tri-C team placed **SECOND** in the nation at the National Collegiate Landscape Competition against two- and four-year institutions.

The Plant Science and Landscape Technology program offers flexible learning options that include:

Summer field experience (paid internship) between the first and second years.

Hybrid and online learning options include online lectures and hands-on labs.

Part-time and full-time options.

PROGRAM OPTIONS

Associate of Applied Science degree with three elective options: landscape contracting, tree care, or garden center & nursery management.

Landscape Technician Certificate of Proficiency.

6 short-term certificates that can be earned by attending classes for two semesters.
